What is Fantastar?

Fantastar is a free platform that enables **anyone** to create their own **fantasy sport league**.

The aim of Fantastar is to create a whole new experience for grass roots sport by bringing the concept of fantasy league to local sports clubs, universities and schools.

Fantastar works very differently to conventional fantasy league websites. It does not require the likes of David Beckham or Steven Gerrard because it's the club players and pupils who become the stars of the show.

Fantastar currently supports hockey, football (soccer), cricket, rugby and ice hockey. That's not all...Fantastar can be applied to any sport whether it's fly fishing or ultimate frisbee...watch this space!

Why Fantastar?

Fantastar is a whole load of fun and will bring a new dimension to club and school sport. It's also great for:

- ✓ Building a thriving club spirit
- ✓ Fund raising
- ✓ Raising the profile of sport
- ✓ Raising the standard of players
- ✓ Improving player commitment
- ✓ Attracting new players to clubs

How does it work?

A Fantastar season begins by an administrator entering the teams and players on the website. Everyone is then invited to register as a manager and select their Fantastar team online using purely the players from the club / school. This is a great way to build rapport amongst the participating teams and, if the club or school chooses to charge an entry fee, is an excellent opportunity to raise funds.

As the season progresses, the administrator, or team captains, enter the match results on Fantastar. Players receive points for appearances. Additional points can be won or lost in a number of ways such as scoring goals and keeping clean sheets. Fantastar can even be customised to include other ways of scoring such as umpiring and training attendance.

When results have been entered the Fantastar Stats Engine kicks in and calculates the points scored by each player and fantasy team. Each player's performance is ranked against all other players in the same position (e.g. midfielder) to produce their Fantastar rating, a star rating ranging from 1 to 5.

Anything Else?

Seeing as you ask...yes! Fantastar also enables fantasy league competitions to be set up for top-flight or local leagues. The website has been used to host fantasy league competitions for events that other fantasy league websites cannot reach, such as the 2006 Men's Hockey World Cup, the 2007 EuroHockey Championships and the British Elite Ice Hockey League.

And lastly a bit more fun...

Fantastar trump cards can be generated automatically using the player's latest stats.

Each league includes a private forum which is great for improving communication within the club or school.
